

**TARANAKI BASE HOSPITAL**  
**NEW PLYMOUTH**  
**NEW ZEALAND**  
**CONSULTANT DERMATOLOGIST**

Applications are invited for a Consultant Dermatologist. The successful applicants will join a department of eight Consultant Physicians who have subspecialty interests in Cardiology, Endocrinology, Gastroenterology, Respiratory, Renal and Rheumatology. Alongside hospital commitments there is a significant opportunity for development of a private practice. The ratio of public / private work will be negotiated with the successful candidate.

The successful applicant should have specialist qualifications registrable in New Zealand. The Department of Medicine has a strong track record with education and training, and the successful incumbents will be expected to participate and contribute to the department's CME activities, including basic & advanced trainee registrar teaching, audit and medical student teaching. Salary will be in accordance with the current national collective agreement . A comprehensive relocation package would be available to the successful permanent appointees.

Applications will also be considered from candidates currently in training posts seeking employment within twelve to twenty-four months or from suitable candidates who may wish to work in a locum capacity for six months or longer.

Taranaki is situated on the west coast of the lower North Island of New Zealand with a population of approximately 105,000. It is an area with outstanding scenery and is undergoing strong economic growth. It is an excellent and affordable place to live and raise a family, with first class educational facilities. The mountain to surf environment encourages outdoor living and recreational activities which are all available within minutes of New Plymouth, the provincial capital.

Taranaki Base Hospital, situated in New Plymouth, is a progressive regional secondary referral centre for the province of Taranaki with a wide range of medical and surgical specialties. A very well equipped Radiology Department provides a wide range of diagnostic and some interventional procedures. There is an excellent Laboratory Service and the IT service is among the best in the country. An \$80m building redevelopment is due for completion in 2012.
